

NIO

16 October 1975

NOTE TO:

25X1A

SUBJECT: Production of the Special Paper for the China NIO

I want to use this means to formally express my appreciation to all those who played a key role in meeting a rather urgent requirement from the NSC. The time constraints were burdensome, and I know posed problems for all of you. Though more work needs to be done, I think we can be proud of what was prepared in the brief time that was available, and the credit goes to each of you, for you all played a vital role. In OPR we don't have to meet these kinds of deadlines often, but it is reassuring to know that we can do it when it's required.
